Sir:

SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Applicants hereby voluntarily disclose the additional references listed on the attached Form PTO-1449 to the Commissioner for Patents. Copies of the references F1, F2, D1, and D2 listed on Applicants' Form PTO-1449 are enclosed herewith. Each item of information submitted with this Supplemental Information Disclosure Statement was first cited in communications from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the supplemental information disclosure statement. A copy of the International Search Report citing the references is also enclosed.

Document F1, EP 1 394 120 A1, is an apparent English language equivalent of Russian language document WO 02/083572 cited in D1 (the International Search Report for the international application related to the above-captioned application). Document F2 is a German language patent document which appears to relate to a liquid cleaning composition comprising an amphoteric polymer, antibacterial agent, nonionic surfactant and solvent according to the Derwent® English title (see D2, printout of Delphion® Search Record for Document F2; no equivalent English language abstract or specification appears to be readily available at this time).

Applicants further reserve the right to establish the patentability of the claimed invention over any of the listed information should they be applied as references, and/or to prove that some of the cited information may not be prior art, and/or to prove that some of the cited information may not be enabling for the teachings they purport to offer.

This statement should not be construed as a representation that a search has been made, or that the information cited herewith is material, or that there does not exist information more material to the examination of the present Application. The Examiner is specifically requested not to rely solely on the information submitted herein. On the contrary, the Examiner is requested to conduct an independent and thorough review of all available information, and to form independent opinions as to its significance.

It is respectfully requested that the Examiner initial and return copies of the enclosed PTO-1449 and to indicate in the official file wrapper of the above-identified patent application that each item of the cited information has been considered.

Respectfully submitted,

Date: Nov 1, 2004
